HIGH VOLTAGE SPLICING

The High Voltage Splicing course will be conducted at the new Electrical Industry Training Center on Monday and Wednesday evenings from 5:00 pm – 7:00 pm and run from September to June. There is a dedicated room with 16 work stations where each member will be able to complete their splicing projects as part of the training program.

High Voltage Theory is a pre-requisite to taking this course. Most high voltage splicing jobs traditionally take place within a confined space therefore it is suggested that members take the Confined Space course that is offered by the Educational and Cultural Trust Fund (E & C). In the theory course members will learn the proper safety procedures with respect to working around and understanding high voltage switch gear and additional lock out tag out procedures. If you have not taken theory please contact E & C at (718) 591-2000, ext. 1530 and sign up to be put on the list.

Students in the splicing course will gain hands on experience splicing and terminating cables from 5,000 volts up to 345,000 volts. They will receive instruction on all facets of high voltage cable splicing including, hand applied tapes and solder wiping. In addition students will learn proper manhole safety procedures, with respect to cable splicing from instructors who have years of field experience.

If you have completed the High Voltage Theory class and would like to sign up for the High Voltage Splicing class please fill out the coupon below and return to the Educational and Cultural Trust Fund. Your name will be put on a pending list and you will be notified by mail when you are scheduled to start the course.
