

## ANNUAL REPORT 2020-2021

JOINT INDUSTRY BOARD OF THE ELECTRICAL INDUSTRY

The Joint Industry Board of the Electrical Industry was founded as a joint labor-management cooperative organization by the International Brotherhood of Electrical Workers Local Union No. 3 and The National Electrical Contractors Association to promote harmony between employers and employees, administer benefits for members and their families and improve the electrical construction industry through progressive management, education, training and advanced technology.

## JOINT INDUSTRY BOARD OF THE ELECTRICAL INDUSTRY

#### Chairperson's Message

**DR. GERALD FINKEL**Chairperson
Joint Industry Board of the Electrical Industry

For the second year in a row, our Industry was battered by the world-wide COVID pandemic. There are no rehearsals for such an emergency, though our past experience with numerous crises offered some guidance. The Joint Industry Board continued to offer benefits and services to Local 3 members and their families through a mixture of in-office and remote workplaces. The historical co-operation between our Union and Employer representatives gave us the flexibility to establish a safe workplace where JIB employees processed health and welfare benefits, pension checks and job site referrals, uninterrupted despite the threat from a deadly virus.

With the reopening of jobsites and the challenges for our Employers to protect their employees, the Employment Department worked closely with the Local 3 leadership and its N.E.C.A. counterparts to meet the needs of contractors, developers and the public at large. It is worth noting that long time Employment Director Tom Bush retired in 2020 and Joe Hester was elevated from the Assistant Director's position to Director. He was joined by Michelle Moldanado as the new Assistant Director. The department plays a vital role in ensuring that job opportunities are properly staffed and to that end, placed 3,335 A-journeypersons with affiliated employers. This was of course countered by a 12-month average monthly unemployment of 1,148 which reflected both the effects of COVID on the local economy as well as the chronic negative impact of market forces.

A counter-intuitive feature of the COVID pandemic was the positive performance of the equity markets. 2021 was a very strong year for our Plans' investment portfolios. Large cap U.S. stocks gained 29%, international equities were up 11% and our real estate investments had double digit returns after a flat year in 2020. The investment grade bond market fell 1.5% although high yield and inflation sensitive bonds earned 5 and-6%, respectively. All of this followed an erratic year, in 2020. This is included here to make the point that your Benefit Plans with balanced holdings showed meaningful gains. Yet participants should realize that such performance is never a certainty. (Note: 2022 inflation and world events have caused significant market instability.)

Although COVID restrictions made it difficult for the industry to host many functions, meetings were generally conducted on Zoom. The Educational and Cultural Trust Fund held a scaled down version of the 73rd Annual Scholarship Award Breakfast, with a masked dais and limited family and guest attendance. Director Michael Yee, the Trustees and the Awards Committee bestowed 45 merit-based scholarships on the children of eligible Local 3 IBEW members.

In a further demonstration of the JIB's commitment to its participants, the E&C Fund unveiled a new Camp Integrity at the site of the former Camp Redwood outside of Walden, New York in the Catskill mountains.

With an abundance of caution and a scaled down camp population, members' children could once again enjoy the summer fun and educational experiences that have marked Camp Integrity since its opening at Bayberryland in 1972. The Educational Trust Fund also maintained a limited number of training classes which were conducted both online and in-person as logistics permitted. Masking, social distancing and ventilation were the orders of the day as instructors and students alike continued to hone their skills in asbestos handling, alternative energy and safety related classes. The same was true for the Long Island Educational Center, which limited attendance to maintain social distancing, required proof of vaccination and improved food handling to keep participants safe. It also allowed our long time Critical Thinking Instructor, Dr. Partha Banarjee, to conduct his final sessions before his retirement. The course of study was entitled, "Science and Economics of Covid."

It is important to remember that while our in-house medical unit, JIB Medical, was significantly reduced in operations, our Medical administrative staff, nurses, and physicians offered a mixture of in-person and tele-medicine visits to service Union members and their families. Probably the most important program offered was the administering of COVID vaccinations by the Medical Department. Our Chief Medical Officer, Dr. Michael Makover, and his staff provided 1,851 "JIB Jabs" to members and their families.

Finally, it is important that I take time to recognize the Employer and Union representatives of the Joint Industry Board. Each in their own way and thus collectively met their responsibilities to promote harmonious labor relations in our workplaces. They repeatedly exercised sound judgement that often went well beyond mundane collective bargaining issues. Through a process of critical thought and assessment, they met the challenges of the COVID pandemic in service to the plan participants. The pressures on our benefit structure required a delicate balance between competing interests and the overall 'greater good' of the unionized electrical industry. Their actions speak loudly as they continue to monitor threats to both our market share and the adequacy of benefit funding. That is clearly a testament to the purpose of the JIB, established so many years ago by the late Harry Van Arsdale Jr. and his Union and Employer associates.

# LOCAL UNION NO. 3 INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS

#### Business Manager's Message

CHRISTOPHER ERIKSON

Business Manager

Local Union No. 3

International Brotherhood of Electrical Workers

I have time and again emphasized that the only purpose of our Union is to serve the membership. That sounds pretty straightforward, but when you throw in a worldwide pandemic, it strengthened our resolve. As joint managers with our affiliated employers in overseeing the Joint Industry Board, the leadership of Local 3 takes on a fiduciary responsibility for the oversight of most of our benefit plans. One of those responsibilities is the need as Local 3's Business Manager, to make every possible effort to ensure that every job is a Union job, while at the same time, acting as a Benefit Fund Trustee to make sure our benefit plans are stable and solvent.

The trust put in me by the Local 3 membership to represent their interests at the Joint Industry Board is never to be taken lightly. I was elected to the position of Business Manager and in light of the daunting challenges including the pandemic, I have made every effort to work with the Employer representatives on the JIB to make sure that both sides meet their obligations. My messages to our membership have often reminded them and their families to support Labor's candidates who support us and protect our economic security and have a positive effect on our industry. President Biden has already demonstrated his understanding of the plight of working Americans, and in particular, has sought out the IBEW leadership's advice on numerous issues. This can only bode well for Union electrical workers and the continuing success of the Joint Industry Board and our harmonious Labor Management relationship.

Employment is the key to any recovery. I am hopeful that the Inflation Reduction Act (IRA) will lead to improved work opportunities for our members. Local 3 has continued to provide our employers with a highly trained workforce that adheres to the principles of the IBEW Code Of Excellence. As we meet the challenges of the open shop contractors and non-union developers, we have responded by using our Job Targeting Fund and making reasonable job by job modifications to regain the competitive edge. With the cooperation of our Employers and the administration of the JIB staff, Local 3 has been able to determine to which jobs it made sense to grant target fund relief and modifications. The membership voted in the previous contract to allow for targeting funds to be generated out of the wage package and while not always successful, has certainly been responsible for gaining thousands of man hours of Union labor.

I would also like to cite the grand opening of the new unionized Turtle & Hughes distribution center in Somerset, N.J. as an example of labor-management cooperation in our industry. Turtle & Hughes is a 100 year signatory electrical supply shop which was under tremendous pressure to cut costs. Local 3 objected to

their new loading and shipping process and then in the spirit of harmonious workplace relations, negotiated an agreement on how to improve efficiency within the union contract. The result was a new 159,000 sq. ft. facility employing some 80 members in our Union's Supply Division.

While the record is clear that we have had a number of positive outcomes, the COVID pandemic has continued to upend many of our gains. We have tried in every way to be fair and considerate of both the Employer needs and the safety of our membership. Our world has changed at home and in the workplace, masks, vaccines, boosters, a part of our lives now and the negative impact on our benefit plans have been significant.

The environment continues to be a grave concern for Local 3, NECA and the Joint Industry Board. Alternative energy use grows more widespread every day and we are determined to secure every possible job opportunity, whether it's wind, solar or electric vehicle charging stations. We are already seeking grant money for training classes and the construction of a new facility adjacent to Camp Integrity for safety protocols pertaining to offshore wind turbine installations. In addition, we have been negotiating with the City and the State to make EV-Charging-Stations a standard part of every new building and garage design.

Yet while we look to a brighter future, we must never forget our past. It has been 20 years since the attacks on the World Trade Center and it is a wound that time will never heal. Seventeen Local 3 Brothers who were not only Union members but employees, fathers, sons and friends, no different than the rest of us were murdered that day. As an Industry, we paid our respects with a Mass and a solemn ceremony in the Electrical Industry Center Auditorium that honored both the Local 3 and Local 1212 members lost that day. The memorial continued the following week as Local 3 sent a small delegation to Padova, Italy where our friends and Italy's FLAEI Secretary General Amadeo Testa offered their condolences in a showing of international labor solidarity at the 911 monument.

# THE NATIONAL ELECTRICAL CONTRACTORS ASSOCIATION NEW YORK CITY CHAPTER

#### NECA New York's Message

KRISTINE DENAPOLI
President

ROBERT AMABILE
Vice President

CRAIG GILSTON
Treasurer

BEN D'ALESSANDRO Governor

**EDWIN LOPEZ**Chapter Manager

**PETER RESCIGNO**Assistant Chapter Manager

#### **NECA New York**

The New York City Chapter of the National Electrical Contractors Association (NECA New York) is the leading association of electrical contractors in New York City, Westchester County, New York and Fairfield County, Connecticut. As the largest Chapter in the United States, NECA New York contractors lead the nation in safety, innovation, and excellence.

For the first time in the history of the unionized electrical industry in New York City there is one contractor trade association! The Association of Electrical Contractors (AEC) came to an agreement that migrated all their members into NECA New York. This historic agreement moves the industry forward united around the contractors' desire to strengthen the industry.

#### NECA New York Continues to Navigate the COVID-19 Outbreak

The global pandemic did not slow down in 2021. Last year required a lot of attention to re-opting guidelines, vaccine mandates, and navigating COVID-19 Sick Pay. NECA New York continued to serve as an advocate for our members, the electrical industry, and construction industry's workforce.

#### Advocacy

NECA New York is a dedicated and persistent advocate for our members in New York City, New York State, and Washington, DC on a variety of issues such as tax reform, pension reform, contracting reform, workforce participation, and infrastructure.

At the city level, NECA New York members participated in various code revision panels for the New York City Buildings Department and the Fire Department of New York to ensure the codes and standards governing the installation of electrical work in New York City are safe and installed by licensed electricians.

At the state level, NECA New York introduced legislation S. 7764/A. 8831, the construction industry advisory council on public contracting reform, which passed with an overwhelming majority in the New York State Assembly and New York State Senate. This council is charged with gathering information on the broken public contracting process in New York State and will make recommendations to the legislature and the governor on changes that should be implemented. The council's efforts are ongoing and NECA New York was a senatorial appointment to the council. The New York State Assembly, Senate and Governor will all make the appointments to this council.

At the federal level, NECA New York in conjunction with NECA National advocated and supported the Infrastructure Investment and Jobs Act which became law.

#### **Commitment to Diversity**

NECA New York established a diversity and inclusion subcommittee to promote equal opportunity within our member companies. Diversity in business was historically focused on gender, race, and ethnicity. It has now expanded to include employees with diverse religious and political beliefs, education, socio-economic backgrounds, sexual orientation, cultures, and disabilities. By supporting and promoting a diverse and inclusive workplace, NECA New York and its member companies are creating measurable benefits that are the foundation of a profitable and productive business.

To better support this initiative and to enforce what was agreed to in collective bargaining, NECA New York launched: a new website focused on diversity and inclusion [www.nyeca.org/diversityandinclusion]. NECA New York knows that supporting diversity and inclusion best practices is not only the right thing to do, but that the business case for encouraging diversity is a tested and proven one.

#### **Continued Collaboration Key**

NECA New York will continue to advocate for our unionized electrical industry. We will continue to work together with Local Union #3, IBEW and the Joint Industry Board of the Electrical Industry, taking our industry's challenges head on. Together, we will provide the highest skilled and educated workforce that owners and developers can count on to continue to build and reimagine New York City with the most innovative, environmental, and social standards as the standard.

#### EDUCATIONAL AND CULTURAL TRUST FUND OF THE ELECTRICAL INDUSTRY

Considered the most comprehensive worker education program in the nation, the Educational and Cultural Trust Fund provides scholarships, college tuition reimbursement for participants and their spouses, college tuition benefits to participants for their children and many academic, vocational and cultural programs. Since the summer of 1972, over 21,887 children between the ages of 8 and 15 have enjoyed a wide variety of activities at Camp Integrity, a children's camp established as a Union benefit.

Participants who have worked for employers contributing to the Educational and Cultural Trust Fund for five years are eligible for college tuition benefits, which bear a low rate of interest.

The maximum college tuition benefit amount was \$4,000 per semester for each child; up to two natural or legally adopted children qualify for this college tuition benefit each semester. As of the Fall 2016 semester, the maximum tuition assistance amount was increased to \$6,000 per semester and includes graduate college tuition benefits, in addition to undergraduate college tuition benefits.

Seminars concerning such topics as financial planning and Pre-Retirement planning are held at the Electric Industry Center in Flushing. In addition, courses are provided in Stress Management, CPR, English as a Second Language and preparation for the GED program leading to a High School Equivalency Diploma. Technical training courses are given in Basic and Advanced Estimating, Transit Work Skills, Advanced Computer, Auto CAD, Building Information Modeling (BIM), Supervision Training, Commercial Driver Class B License Training, Confined Space, International Municipal Signal Association (IMSA) certification, MTA Track Certification, Conduit Bending, Project Management, Photovoltaic/Solar and other areas of "green technologies", OSHA Safety Compliance and New York City Electrical Code.

The following statistics for the fiscal year ending September 30, 2021 indicate how well the Fund has attained its objectives.

#### ELECTRICAL EMPLOYERS SELF INSURANCE SAFETY PLAN

The Electrical Employers Self Insurance Safety Plan (EESISP) is a unique organization dedicated to administering workers' compensation benefits, collectively bargained supplemental benefits, short-term disability and paid family leave benefits to members of Local Union No. 3 International Brotherhood of Electrical Workers.

EESISP is unique in three ways. First, it is the oldest group self-insured trust in the State of New York and one of the most prominent group self-insured trusts in the United States. Second, it is approved by the New York State Workers' Compensation Board to operate an Alternative Dispute Resolution (ADR) system in lieu of participating in the State Workers' Compensation adjudication system. Third, EESISP is one of a limited number of workers' compensation programs to use managed care to assist workers in their efforts to return to work after an on-the-job injury.

Since the New York State Workers' Compensation Board approved EESISP to act as a group self-insured trust in 1967, it has administered over 150,000 workers' compensation claims. EESISP today is, by far, the largest group self-insured trust in New York State.

In 1996, the New York State Workers' Compensation Board granted EESISP the authority to operate an ADR system for all future claims. Participating in an ADR system affords EESISP substantial benefits compared to participation in New York's Workers' Compensation adjudication system, including reduced attorneys' fees, shorter time period from injury to claim resolution and claim handling that is sensitive to the particular needs of injured workers and contractors operating in the electrical industry in the New York City environment. Moreover, since 1996, EESISP has processed over 75,000 workers' compensation claims with a very low number of mediations and arbitrations. No determination made under the ADR system has ever been reversed by New York State Courts.

EESISP also sponsors robust safety programs targeted to both electrical contractors and members of Local Union No. 3, including a wide menu of classes delivered online through EESISP's Learning Management System. For the contractors, EESISP provides a service that mirrors New York's Code Rule 59 program, including the services of full-time Certified Safety Professionals who assist contractors to recognize and correct deficiencies and develop a comprehensive safety program.

Once a contractor designs a safety program with EESISP's assistance, EESISP provides follow-up services to encourage effective implementation. For members of Local Union No. 3, a full-time Safety Director coordinates training in a wide range of areas.

#### PENSION, HOSPITALIZATION AND BENEFIT PLAN OF THE ELECTRICAL INDUSTRY-PENSION TRUST ACCOUNT

The Pension, Hospitalization and Benefit Plan Pension Trust Fund of the Electrical Industry was established on January 1, 1942 and was the first multi-employer Pension Plan to be established for Union members in the United States. As of September 30, 2021, over 13,002 retirees and their beneficiaries were receiving benefits from the Pension Plan. During the Plan year, 880 applied and received pensions and \$266,573,762 was paid to retirees and their beneficiaries of the Pension Trust Fund. There was an increase in the Plan's assets of \$734,452,482.

The Hospitalization Plan's total expenditures for the year ending September 30, 2021 were \$576,671,581 and there was an decrease in net assets of (\$80,124,364). The Hospitalization Plan is also required to indicate the cost of providing Welfare Plan post-retirement benefit obligations. As of September 30, 2021, the present value of providing such retiree coverage was estimated to be \$5,943,227,627 as calculated by the Plan's actuary. Post-retirement benefits include future benefits expected to be paid for both currently retired employees and active employees after retirement from service, as well as eligible dependents.

#### SUMMARY ANNUAL REPORT

The preceding reports are summaries of the annual report of benefit plans administered by the Joint Industry Board of the Electrical Industry (Employer Identification No. 13-0891035). The annual reports for these Plans have been filed with the Department of Labor as required under the Employee Retirement Income Security Act of 1974 (ERISA).

You have the right to receive a copy of each full annual report, or any part thereof, on request. Where applicable, the items listed below are included in the reports:

- 1. An accountant's report;
- 2. Assets held for investment;
- 3. Actuarial information regarding the funding of the Plan;
- 4. Transactions in excess of 5 percent of Plan assets;
- 5. Insurance information, including sales commissions paid by insurance carriers; and
- 6. Information regarding any common or collective trust pooled separate accounts, master trusts or 103-12 investment entities in which the Plan participates.

To obtain a copy of the full annual report, or any part thereof, write or call the Joint Industry Board of the Electrical Industry, 158-11 Harry Van Arsdale Jr. Avenue, Flushing, New York 11365, 718.591.2000. The charge to cover copying costs will be \$.25 per page.

You also have the right to receive from the Plan Administrator, on request at no charge, a statement of the assets and liabilities of the Plan and accompanying notes, or a statement of income and expenses of the Plan and accompanying notes included as part of that report.

You also have the legally protected right to examine the annual report at the main office of the Plan, the Joint Industry Board of the Electrical Industry, 158-11 Harry Van Arsdale Jr. Avenue, Flushing, New York 11365 and at the U.S. Department of Labor, upon payment of copying costs. Requests to the Department of Labor should be addressed to: Public Disclosure Room, Room N5638, Pension and Welfare Benefits Administration, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.
